

Michigan Department of Natural Resources – Wildlife Division

WILDLIFE REHABILITATION PERMIT REPORT

Required under the authority of the Wildlife Conservation Order, Chapter V, Sections 5.70, as amended. Failure to comply with the provisions of this permit may result in criminal prosecution and permit revocation

REPORT YEAR									

State regulations require that permittees maintain an up-to-date record of all animals in their possession for each facility and file a calendar year report. Except for migratory birds possessed under federal permit, this report must be used to maintain this record. Migratory birds possessed under the authority of us fish & wildlife service permit may be reported upon the form furnished by us fish & wildlife service. Each facility that keeps animals for 48 hours or longer must maintain this record on the premises. If this facility was listed on your permit but, in fact, no animals were kept at this facility for 48 hours or longer, indicate **none** on this report.
